

# Guide

Version 1.0

This is the official guide for Group 50's Interactive Narrative.

Arnel Mercado, Mahima Agrawal, Pouria Delfan, Yuxiao Wang (Legolas)

## **Background**

Just Another Day is a story of an international student from India, named Tina. She is having problems adjusting in her new country, Canada. Throughout the story we will see moments in her life as she deals with various problems.

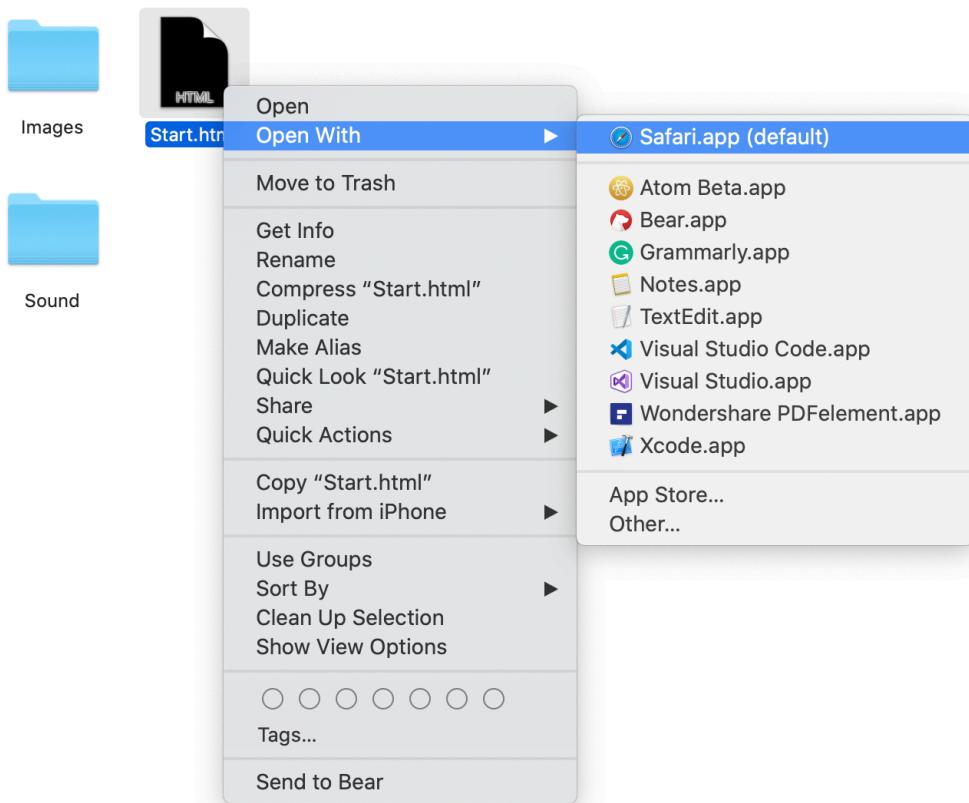

The story is made up of three episodes which are interconnected. The last episode contains three endings which are influenced by the choices the player makes throughout the episodes.

# Instructions

Our interactive narrative is based on website technology and built using Twine. It offers interactive narratives with different episodes and endings through a journey that is composed by images, audio and choices.

Please set your web browser to full screen or set the width of the browser to 1000 pixels or greater when playing. For the full experience, please turn on your speaker.

Once you have downloaded the zip file, uncompress it by double clicking on it. (Make sure to download all the three files and not just the .html file because if everything is not downloaded, you will not be able to see the images or hear the sounds) You will notice the three files from the zip file (Figure 1). Please right click the “Start.html” file and open with Safari (or any other browser that you may have installed).

*Figure 1: To start the file, right click on Start.html and select Open With your browser of choice.*

Please let us know if you get any questions. We'll be sure to get back to you within 24 hrs.
